

**MITSUBISHI EVO X TURBO UPGRADE**

**Bolt-on Upgrade Kit**

**Evo X 0.73 A/R GTX3071R Stage 1 Part Number: 788550-5005s (550hp\*)**

**Evo X 0.94 A/R GTX3076R Stage 2 Part Number: 788550-5008s (650hp\*)**

The Garrett Evo X Turbo Upgrade allows you to push your AWD, rally-bred monster up to an estimated 550 HP with the Garrett GTX3071R or a tire-smoking estimated 650 HP with the Garrett GTX3076R. Each turbo has been meticulously designed to be a bolt-on upgrade with no major modifications or guesswork required. The Garrett Evo X Turbo Upgrade features a specially designed twin-scroll turbine housing that mates to the Evo X's stock exhaust manifold as well as the stock exhaust down pipe to allow for aftermarket exhausts to be used without worrying about fitment.

The turbine housing allows for the retention of the stock exhaust heat shield for better temperature control as well as a stealth look. The ported shroud compressor housing reduces the occurrence of surge during operation and mates directly to the intake piping as well as the stock outlet position. Garrett patented dual ball bearing center housing is standard on both turbocharger options for unmatched power handling and unbeatable response.
